

# PROFITS TRADERS

Exchange-Based Markets

[www.profitraders.online](http://www.profitraders.online)

# Introduction

The foreign exchange market is where currencies are traded. Currencies are important because they allow us to purchase goods and services locally and across borders.

# We Built a **Forex** Platform

Investors who trade stocks, futures, or options typically use a broker who acts as an agent in the transaction. The broker takes the order to an exchange and attempts to execute it per the customer's instructions.

The broker is paid a commission when the customer buys and sells the tradable instrument for providing this service.

The FX market does not have commissions. Unlike exchange-based markets, FX is a principals-only market..
